## Wonderwalls.01 Product Specification

### Wonderwalls.01

Fitted with a wealth of play functions in a reduced space Wonderwalls are specifically aimed at the needs of toddlers and pre-school children. Each equipment design offers a number of play worlds that are interconnected by windows and passages between the three or respectively four walls, which are fanned out around a central post.

As well as space for retreat, children are encouraged to engage in role-playing games using elements such as mud tables, benches, sand workshops or openings in the walls. Language and social skills are fostered and trained in a playful way.

The highlight of Wonderwalls.01 in the design of a tree stump is a passage with rubber membranes connecting two play areas. And anyone looking closely will find a secret opening under the bench.
