A play centre with two platforms and various climbing elements. Stairs with handrails lead up to the platform, which is connected to the others with a secure sloping bridge. Two climbing walls with varying difficulties and a rope climbing net help to practice dexterity skills. The platform with a slanted roof offers a slide for dashing down. A captain's helm, an activity panel and a fun play corner with a bench, which can be fitted with kitchen or car dashboard elements add an extra layer of fun. The side panels of the play centre can be switched for various activity walls or thematic printed panels (animals, birds, fish, trees, berries, etc.). The design of the panels will be finalised with the client during ordering.
