This toddler play centre with its four platforms unites elements that help develop gross motor skills and promote active play. Stairs with handrails and a ramp with rungs lead up to the platforms. A secure net bridge with handrails, two ramps with rungs and a crawl tunnel connect the platforms. Two chutes of different heights satisfy all sliding needs. An abacus, a rotating numbers panel, a Tic-Tac-Toe game, a clock with hands, moveable sailboats and a captain's helm help develop fine motor skills.
