3.74 m

Technical information

Safety area width	6.99 m
Safety area length	10.78 m
Width of structure	3.99 m
Length of structure	7.22 m
Height of structure	3.74 m
Max. fall height	2.25 m
Recommended age of children	4+
For simultaneous use by several children	8-16

Product consists of

Platforms	1 pcs with a height 1.55 m Plastic covered laminated wood
Platforms	1 pcs with a height 1.2 m Plastic covered laminated wood
Platforms	1 pcs with a height 0.95 m Plastic covered laminated wood
Roofs	1 pcs HDPE plastic
Slides	1 pcs with a height 1.2 m Stainless-steel, HDPE plastic sides
Climbing walls	1 pcs HDPE plastic
Ladders	1 pcs Galvanized and powder-coated steel
Bridges	1 pcs
Fireman poles	1 pcs Galvanized and powder-coated steel
Activity panels	1 pcs HDPE plastic
Posts	16 pcs Laminated wood
Panels/Plates	6 pcs HDPE plastic
Tubes	4 pcs Galvanized and powder coated steel

Installation info

Installers	2
Installation time	18 h
Volume of concrete	28 bags (25kg)
Package dimensions	2,9x2,3x1,2m

The product's painted profile posts made of laminated timber are concreted into the ground using hot-galvanized metal tubular fittings.

The product needs a safety surface

A fortress-like play centre with a large octagonal platform and roof. A lower platform and a metal arched ladder offer access to the centre, the side panel of the watchtower is equipped with a set of binoculars. The platforms are connected with a net bridge with metal handrails, which leads kids to equipment that helps to develop climbing and dexterity skills (climbing wall, arched ladder, fireman's pole). A slide and fireman's pole offer a way to slide down. The side panels of the play centre can be switched for various activity walls or thematic printed panels (animals, birds, fish, trees, berries, etc.). The design of the panels will be finalised with the client during ordering.
