The product needs a safety surface

This versatile play centre with two platforms, a net bridge, a climbing wall, an activity panel and a swing offers the best option for active playing. The play centre can be accessed via a rock climbing slope. Hidden beneath the higher platform is a play corner with a bench, which can be fitted with a kitchen or car dashboard elements. A strong metal beam is attached to the play centre, which holds an aluminium reinforced rubber swing seat (swing set KRK2 is included in the price of this product). The side panels of the play centre can be switched for various activity walls or thematic printed panels (animals, birds, fish, trees, berries, etc.). The design of the panels will be finalised with the client during ordering.
