1.9 m

Technical information

Safety area width	6.92 m
Safety area length	9.62 m
Width of structure	3.99 m
Length of structure	6.73 m
Height of structure	1.9 m
Max. fall height	0.95 m
Recommended age of children	1+
For simultaneous use by several children	6-12
Wheelchair Accessible	Yes

Product consists of

Platforms	1 pcs with a height 0.95 m Laminated wood
Platforms	3 pcs with a height 0.25 m Laminated wood
Slides	1 pcs with a height 0.95 m Stainless-steel, HDPE plastic sides
Bridges	1 pcs
Slopes	2 pcs Plywood
Stairs with handrails	1 pcs Laminated wood
Activity panels	4 pcs HDPE plastic
Posts	12 pcs Laminated wood
Panels/Plates	8 pcs HDPE plastic
Tubes	2 pcs Galvanized and powder coated steel

Installation info

Installers	2
Installation time	21 h
Volume of concrete	23 bags (25kg)
Package dimensions	2,6x1,3x1,6m

The product needs a safety surface

An inclusive play centre suitable for children with special needs. The play centre can be accessed via extra wide stairs or a ramp with guardrails, which let the user move around in a wheelchair or with the help of a caregiver. The steps are wider, so they can be stood on with both feet. The handrails and side panels are taller to offer extra support. The slide itself is wider, so the kids and caregivers can slide down it together. To create a visual contrast to help the visually impaired, the vertical surfaces of the stairs, the first step and one platform board have been dyed darker. The ramp leads to a long platform decked with activity panels. The play centre is equipped with many activity panels, that help develop fine motor skills: moving a ring from one end of the panel to the other, turning the captain's helm or a circular activity panel, viewing the surroundings from the binoculars.
