The product needs a safety surface

A play centre with two platforms, a climbing wall and a slide. The different level platforms can be accessed via the stairs or a ladder, both offer slides that lead down. An abacus under the higher platform provides a role playing opportunity. The side panels of the play centre can be switched for various activity walls or thematic printed panels (animals, birds, fish, trees, berries, etc.). The design of the panels will be finalised with the client during ordering.
